Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Acknowledgement is made of Applicants' election in the Response received 14 October 2005 of hydroxypropyl cellulose, aminoguanidine bicarbonate, alloy of aluminum and magnesium, potassium nitrate, and surface of a gas generant material.

However, for the single associated inflator apparatus surface, Applicant elected: surface of a gas generant material. This election does not appear consonant with the species listed in claim 14. Examiner requests Applicant elect one of the species listed in claim 14 for prosecution to eliminate any ambiguity. Also, upon further review of the language of the claims a further restriction/election is required. Examiner regrets any inconvenience to Applicant.

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention:

- Species A: gas generant material for use in an automotive safety restraint
- Species B: hybrid gas storage container for use in an automotive safety restraint
- Species C: damper pad for use in an automotive safety restraint

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for claim 14 and the above listed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, as to claims 14-17 claims 1-13 and 18-29 appear generic and/or have covered by the prior election requirement.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Jeffrey L. Gellner whose telephone number is 571.272.6897. The examiner can normally be reached on Monday-Friday, 8:30-4:00, alternate Fridays off.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Peter Poon can be reached on 571.272.6891. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
